Glue

Titebond® Glue

Titebond Original Wood Glue develops a bond stronger than the wood itself, offers outstanding sandability and is unaffected by finishes. It provides excellent resistance to heat, solvents and mildew. It is ideal for both hardwoods and softwoods, as well as most other porous materials. Titebond Original Wood Glue is easy to use, non-toxic, solvent free. The thickest, fastest drying glue available for use with porous and semi-porous substrates. This no-run, no-drip formula dries clear and is ideal for finish and trim carpentry, including crown moldings, chair rails, cabinet trim, baseboards and window casings.

Gorilla™ Glue

Gorilla Wood Glue, bonds stronger, faster for wood-to-wood applications. Works on a variety of wood surfaces, including hardwoods, softwoods, and wood composites, and has no dyes for a better looking bond line.

- Requires only 20-30 minutes of clamp time, and is fully cured in 24 hours.
- Can be used indoors or outdoors, and passes ANSI/HPVA Type II water resistance.
- Non-toxic, water-based, solvent free polyvinyl acetate (PVA).
- FDA approved for indirect food contact.
- Easy clean up with water.
